

A slight shift in size, not price

Transitioning all 17"x22" stocks to 17.25"x22.25"

A little more sheet goes a long way. All 17"x22" Starliner®, Metro®, and Strip-Tac® items have moved to 17.25"x22.25", giving more flexibility for finishing needs with no change in pricing or product performance. These products have the same base item number as before with an added "W" on the end to reference the new size.

The products below have transitioned to the new size
