

DiversiPrint®: A true multi-print solution

Do you need one product that can be printed using multiple print technologies? Check out our DiversiPrint product line. We offer both paper and film options that are engineered to print via flexo, as well as water-based inkjet and laser printers.

	Features:	Applications:
DiversiPrint® This stock is a bright white, uncoated paper designed to be compatible with most low-speed and high-speed laser printers. It also works well in many color and monochrome inkjet printers.	<ul style="list-style-type: none"> • bright white appearance • dimensionally stable • good ink anchorage • economical 	<ul style="list-style-type: none"> • blanks for address labels • carton labels • seasonal stickers
DiversiPrint® Cover-up This is our DiversiPrint paper with a cover-up primer on the backside. The primer is an opaque barrier coating that inhibits show-through of text and graphics on the substrate beneath the label.	<ul style="list-style-type: none"> • greater than 95% opacity 	<ul style="list-style-type: none"> • cover-up labels for packaging misprints • promotional packaging labels

Others have had success with printing these products on the printers below:
