

XYZ™: An adhesive for beauty, pharma, and a lot in-between

Sometimes you just need a broad-ranging adhesive that covers a lot of bases. Something that will work on ... well—X,Y,and Z. A general purpose permanent adhesive, XYZ is designed for paper facestocks. It has open time for repositionability, and a stable, flat release for reliable converting. This adhesive has excellent ultimate adhesion to polypropylene, polyethylene, and glass. It is good for cylindrical labeling such as test tubes, vials, etc with the appropriate facestock.

Minimum Application Temperature: 40°F | Service Temperature: -45°F to 200°F

Applications to test:

- health and beauty
- food and beverage
- pharmaceutical
- print-and-dispense labels
- glove-friendly applications

Available in Trimless constructions with a minimum single roll order of 3" x 5,000'

Please contact your Account Manager or Technical Consulting Representative for more information: 800.543.9452

Product performance depends on many variables; testing for a specific application is recommended.
